Professional Summary

Mechanical engineer with expertise in energy systems and a keen interest in renewable energy projects. Skilled in project management, innovation and design.

Experience

- Mechanical Engineer at RenewableTech BV, 2018–Present
- Energy Systems Engineer at EnergyWorks, 2013–2018

Key Achievements

- Designed a cooling system improving energy efficiency by 25%
- Led a team developing a 10 MW wind power installation
- Authored two patents on heat exchange technologies
- Presented at three international engineering conferences

Education

- MSc in Mechanical Engineering, Delft University of Technology, 2013
- BSc in Mechanical Engineering, Eindhoven University of Technology, 2011

Skills

Energy Systems, Renewable Energy, Project Management, CAD Design, Patents
