Professional Summary

Machine Learning Engineer with expertise in MLOps and large language model applications. Skilled at building scalable AI systems and driving innovations in natural language processing.

Experience

- ML Engineer at AI Solutions Ltd, 2020–Present
- Data Scientist at Tech Innovations, 2016–2020

Key Achievements

- Designed and deployed an LLM-based recommendation system with 25% higher user engagement
- Optimized MLOps pipelines, reducing deployment time by 30%
- Contributed to three open-source AI projects on GitHub
- Published research on multilingual models in a peer-reviewed journal

Education

- MSc in Machine Learning, Imperial College London, 2016
- BSc in Computer Science, University of Cambridge, 2015

Skills

MLOps, Python, TensorFlow, Natural Language Processing, Deep Learning
